

Subwoofers High force I Evo

Description :

- Active subwoofer, compact and closed.
- High definition bass, melodic lows and clean tones with low distortion.
- Color flexibility : white or black.
- Connection flexibility for any configurations Hi Fi or Home cinema :
- Audio video amplifier.
- Separated Stereo Amplifier/Pre-amp.
- Integrated Amp / Preamp(with or without Pre out).
- Settings flexibility (active crossover with variable slope, switchable in LFE mode, variable phase).
- Power management : Auto "on /off".
- Dual Voltage : 110 / 220V.

Audio Applications :

- Hi Fi Stereo 2.1 or Home Cinema 5.1 associated to the Waterfall UFL satellite system range.
- Suitable for rooms 15 to 25 m²
- Best performances if placed in a corner.
- Designed for small spaces : apartments, bedrooms etc...
- Due to the absence of bass reflex exit, can be positioned inside furniture or in a "niche".
